

# VIMation Journal

ISSUE 1 / 2008  
SPECIAL ISSUE

Knowledge, Service  
& Production:  
IT as an Enabler

Christoph Altenhofen | Sandra Frings | Anette Weisbecker

**Aladdin – A mobile Multilingual Traveller  
Platform for Travellers and Tour Guides**

Patrick Schneider | Oliver Höß | Anette Weisbecker

**Service-Oriented integration of Multi-Sensor  
Environments into ERP Systems**

Konstantin Wittfeld | Andreas Helferich | Georg Herzwurm

**Vendor-Managed Inventory as a Knowledge-in-  
tensive Service in Procurement Logistics in the  
Automotive Industry**

Maxim Foursa | David D'Angelo | Rejin Narayanan | Georg Glock

**A Novel User interface for Controlling industrial  
Environments and a Simulation Test Bed**

Dr. Khalil Aslam Awan | Dr. Yasir A. Hadi

**Prediction of Al and Cu Surface Roughness  
Based Regression Analyses Model**

Robert Schmitt | Carsten Scharrenberg

**Approach for the Systematic implementation of  
Quality Gates for the Planning and Control of  
Complex Production Chains**

Marco Castellani | Nuno C. Marques

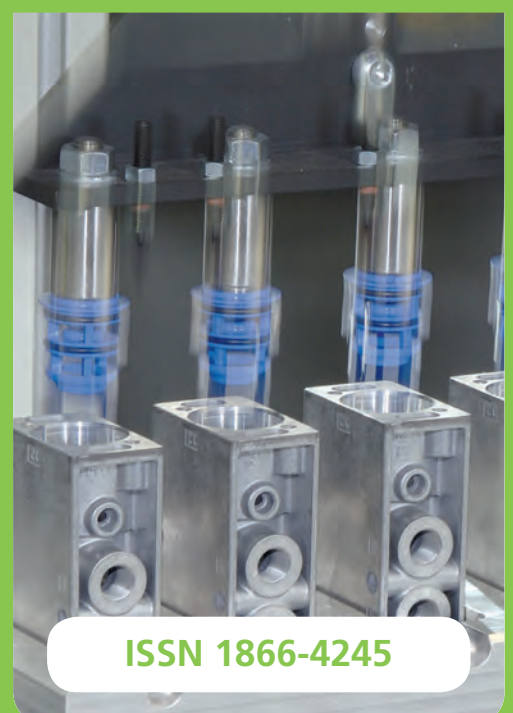

**FeaSANNT – an Embedded Evolutionary  
Feature Selection Approach for Neural Network  
Classifiers**

Thomas Schlegel | Wolfgang Beinhauer | Fabrizio Meo

**Object-Orientation in Planning and Control of  
Decentralised Production Systems**

Martin Josef Geiger

**On Interactive Search and Computer Assisted  
Planning – State of the Art and Future  
Research Directions**

ISSN 1866-4245
