

VIMation Journal

ISSUE 1 / 2010
Special Issue

Interactive
Systems in
Healthcare

Tamas Szecsi | M. Kabir Al Mamun | Muhammad Kamrul Hasan
Md. Anwarul Islam | Colin Griffin | A.S.M. Mojahidul Hoque

Hospital Robot Module Development in the iWARD Project

Dagmar Häbe | Thomas Schlegel | Simon Thiel

Cooperative Robot Teams Performing in a Hospital

Roberto Teti | Alessandra Caggiano | Vinesh Raja | Saurin Badiyani
Hardik Raja

Human Robot Interface Design for Hospital Robot Swarm

Massimo Martorelli

Virtual Prototyping in the Development Process of Customised Hearing Aid Shells

Mattia Oliosi | Francesco Aggogeri | Marco Mazzola

An Integrated Approach to Enhance Quality and Reliability of Healthcare Processes

Michael S Packianather | Duc T. Pham | Eugene Y. A. Charles

Doriana D'Addona | Roberto Teti | Roberto Martina | Giorgio Iodice

Spiking neural network with delay- adaption learning model for decision support in treating dental malocclusions

Uwe Laufs | Christopher Ruff | Anette Weisbecker

MT4j – An open source platform for multi-touch software development

Doriana D'Addona | Roberto Teti

Tool Delivery Prediction through Adaptive Neuro-Fuzzy Inferencing

Nataliya Popova | Martin Feike | Armando Walter Colombo

Modular Control Software for Ambient Intelligence in Production Systems

Doriana D'Addona | Roberto Teti

Intelligent Material Modelling for Mild Steel Hot Working

Jiří Hodík

Simulation of Virtual Organization Performance

ISSN 1866-4245
